"I don't think of myself as a jeweler. I'm a guy who likes to see what happens when you push a material to its absolute limit."

01. ORIGIN**PROJECT SABOTAGE**

The story of how a watch became a comic book, and how the materials wrote the plot.

02. MATTER**BADGERITE POWER**

My own proprietary lume compound. It's what happens when you decide the watch industry isn't bright enough.

03. PROCESS**THE ALCHEMY**

Turning Fordite, Zirconium, and Damascus into physical artifacts of industrial optimism.
